Everything we make is not listed in this price list. Call for prices for anything not listed.

**Prices subject to change without notice.**

**Feel free to call if you have any questions**

Hook Solutions is a family owned and operated fishing lure manufacturing business that began in 1987 in Warsaw, Missouri. What began as a side business in the family's home, expanded to a garage and full time business when the equipment was upgraded to spin casting in 2001. Recently, we have built a larger building to better accommodate all the operations of the manufacturing process complete with a retail store.

Hook Solutions provides multiple services including but not limited to spin casting, powder painting, spray painting, making soft plastics, small CNC molds and production spin casting molds Our products can be found in our own store just north of Warsaw, Missouri and other bait and tackle stores throughout Missouri and the United States.

Attention to detail is a must and we strive to produce quality products for our customers.

Thank you for considering us for your fishing lure manufacturing needs.

David Aery  
Owner, Hook Solutions
